**Consumer Updates > 'Gluten-Free' Now Means What It Says - FDA**
https://www.fda.gov/ForConsumers/ConsumerUpdates/ucm363069.htm ▼
Dec 13, 2017 - In August 2013, the Food and Drug Administration issued a final rule that defined what characteristics a food has to have to bear a label that proclaims it "gluten-free." The rule also holds foods labeled "without gluten," "free of gluten," and "no gluten" to the same standard. Manufacturers had one year to ...

**Label Reading and The FDA - Celiac Disease Foundation**
https://celiac.org/live-gluten-free/glutenfreediet/label-reading/ ▼
A gluten-free label. If a product claims to be gluten-free on the package, then it is most likely safe to eat as the FDA only allows packaged foods with less than 20ppm of gluten to be labeled "gluten-free." However, you should still check the ingredients list. It is also important to remember that "wheat-free" does not necessarily ...
